F&M Trust's Vision For A New Headquarters Is Finalized

F&M Trust, in Chambersburg, PA, decided to relocate their corporate headquarters from the downtown district of Chambersburg to an 11-acre parcel that was once a vacant industrial facility. This move allowed F&M Trust to accommodate nearly 145 employees with additional space to house more employees as the bank expands.

In conjunction with the architects at Noelker and Hull Associates, Gatter & Diehl transformed the abandoned manufacturing building into 70,000 sq. ft. of office space. The renovation project was designed to keep a downtown-like presence as all of the operations are run under one floor and one roof. The project includes a new server room with a clean agent fire protection system, LED lighting, emergency power system, Variable Volume and Variable Temperature HVAC system, upgrades to the HVAC controls, and a power distribution for a complete green energy office layout design.

Gatter & Diehl Creates Student Program

At Gatter & Diehl, we believe our schools STEM and TSA curriculums are vital in helping students learn real world applications in the Architecture, Engineering, and Construction industry by developing a variety of skill sets for their future careers and life experiences. Our five-week program is designed to show STEM and TSA students an inside look of system designs, both Mechanical and Electrical, plus AutoCAD, Energy Modeling and Commissioning. If you are a current STEM or TSA student in High School and are looking to observe and obtain some hands on experience in what we do at Gatter & Diehl, this is the program for you!

Diakon Celebrates Ground Breaking

Diakon Senior Living's Luther Crest campus held a ground breaking ceremony for a 55,000 sq. ft. renovation project affecting their cafe, dining, and kitchen area. A few of our team members had the privilege to participate in the event alongside the design team including the architects at Noelker & Hull. Our goal for this project is to modernize the experience for the Luther Crest residents with sophisticated mechanical, electrical, and plumbing systems including implementation of bi-polar ionization and improved fresh air ventilation.

Gatter & Diehl Attends Tobey-Karg's Customer Appreciation Event

Our team made the trip to Top Golf in Bridgeville, PA to celebrate Customer Appreciation Week with Tobey-Karg Sales Agency. On site was the AAON Trailer where we were able to look at some of the newest technology in HVAC and controls equipment. Special thanks to Dan Gardner from Tobey-Karg for the invitation. It was a great time with some great people.
