Phoenix Contact Achieves LEED Silver Accreditation & Net-Zero Energy For Logistics Center of America

Phoenix Contact's 103,000 sq.ft. expansion project for the Logistics Center of America (LCA) at their headquarters in Middletown, PA reached its full potential with a USGBC LEED Silver certification and Net-Zero Energy Status. This milestone achievement came to fruition just two years after the completion of the LCA, earning a total of 52 LEED points while our energy modeling department was responsible for 17 of those points.

Phoenix Contact is a world-wide leader in developing and manufacturing industrial, electrical, and electronic technology products that serve customers all over the globe. The expansion of the LCA and the accomplishment of attaining LEED Silver and Net-Zero energy design further empowers that initiative.

G&D's Daniel Crist Receives EIT Certification

Gatter & Diehl is proud to announce that our MEP designer, Daniel Crist, passed his Fundamentals of Engineering (FE) examination and is now officially an Engineer in Training (EIT). The exam was administered by the National Council of Examiners for Engineering and Surveying, which is a nonprofit organization dedicated to advancing professional licensure for engineers and surveyors. We congratulate Daniel on this tremendous accomplishment, and we wish him continued success with the firm and in the industry.

Cedarbrook Breaks Ground In New Expansion Project

Cedarbrook Senior Care & Rehab in Allentown, PA hosted a groundbreaking ceremony for their \$63 million skilled nursing addition. The project will consist of a four-story, 240-bed L-shaped wing that's 145,000 sq. ft. in size. The new addition will free up space to move residents out of the 1970s D wing for renovations as part of a Phase 2 of the Cedarbrook overhaul.

Our role in this project is to provide energy efficient, sustainable, and cost effective MEP/FP designs that utilize the latest technologies to provide the residents at Cedarbrook with superior comfortability and security.

Gatter & Diehl welcomed two new mechanical designers to our team over the summer. Sam Baum (left) and Ethan Hess (right) are both talented individuals that will fit in nicely with our company.

Gatter & Diehl Sponsors Event That Benefits 'In Touch Hospice Care'

The 35th annual UPMC Somerset Hospital Open Golf Tournament was held at Somerset Country Club back in August. We were privileged to continue our longstanding sponsorship of this prestigious event that aims to support the programs and services of the Somerset Community Hospital Foundation which provides funding for health improvement programs including In Touch Hospice Care.
