

## **UPMC Hillman Cancer Center Is Ready To Help The Somerset Community**

Oncology is returning to Somerset, PA with the grand opening of the new UPMC Hillman Cancer Center located beside the UPMC Somerset Hospital. After being without oncology services since the beginning of 2020, UPMC took an initiative to transform the former Allegheny Health Network Cancer Institute into a state-of-the-art medical oncology suite. The upgraded facility includes eight treatment chairs, one private treatment room and a larger treatment area to provide more room for the patients and an on-site laboratory to provide complete blood analysis prior to cancer therapies. Our team worked alongside the architects at CPL to replace and upgrade the HVAC and electrical systems as well as adding new interior finishes, sprinkler systems, and power and data as required throughout the building.

### **Gatter & Diehl Welcomes Newest Designer**

It is with great pleasure that we announce the newest member of our team, Brady Dolan! Brady is brought on as a mechanical systems designer who's responsibilities include meeting design requirements for the client in the application of heating, ventilation, and air conditioning. A four-year graduate of SUNY Maritime College, Brady has experience in the industry as a former designer and project estimator for a HVAC contractor. We're excited to see Brady grow into his role on the team as he is a bright and talented individual.

## Preserving Our History, For The Future

It's important for the A/E/C industry to take initiatives supporting the modernization of technology and aesthetics. However, it's also important to preserve the past so we can better understand how our history was made. That's why our team is proud to utilize our expertise in designing energy efficient MEP systems to the historic Bedford County Courthouse and Lebanon Valley College (LVC) Humanities Building. Both constructed in the 1800s, each facility has its own unique place in Pennsylvanian history. The Bedford County courthouse is the oldest-active courthouse in the state, while the LVC Humanities building was the lone building of the college's founding. Both of these projects exemplify how we can combine sophisticated technology with nearly 200 year-old facilities.

## Gatter & Diehl Swings Away at President's Invitational

Our team had a fantastic time at the 16th annual Junior Achievement of Western PA Presidents' Invitational golf tournament held at the prestigious Omni Bedford Springs Resort. It was a great honor to co-sponsor the event with our friends at M&T Bank as the on-course refreshment sponsor, which came in handy on this sunny and beautiful day.
