## G&D Designing Local Campus for Fire & Risk Alliance

Fire & Risk Alliance (FRA), a leader and innovator in fire and hazard protection solutions, is realizing a Research and Development campus at the Everett Business Park in Everett, PA. The new campus will feature a multitude of facilities that include a cutting edge fire testing laboratory, an office suite, and a R&D training center. The campus will serve to enhance FRA's initiative to provide comprehensive training to equip professionals with the latest knowledge and skills essential for addressing the unique challenges associated with battery energy storage systems, EVs, and emerging fire safety hazards.

## It's Almost National Engineers Week!

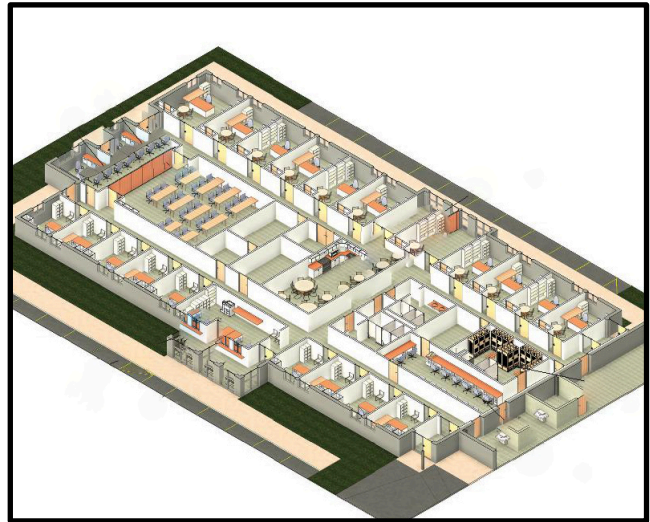

More than a week-long event, National Engineers Week is a year-round commitment to making a difference in the world. During the week of February 18<sup>th</sup>, we recognize the critical work of engineers and the impact they have throughout history and around the globe. This year's theme will focus on how engineers are shaping the future and how the industry is at the forefront of making our lives more efficient, comfortable, and connected.

## Bedford Rural Electric Cooperative Receiving New Headquarters

Gatter & Diehl is currently designing Bedford Rural Electric Cooperative's (BREC) new headquarters which will be located at the Bedford Business Park in Bedford, PA. Included in the design is a modernized office space and shop area that's supported with energy efficient LED lighting and a highly advanced geothermal system that heat and cools the entire facility. This project is nearing the completion of the design phase with construction starting in the upcoming months.
